<b>Description</b> <a href="https://github.com/OSLL/mdbci/blob/4a68ae9f1f9c8bf3f45cb622607e751a2466e1b8/core/network.rb#L64">https://github.com/OSLL/mdbci/blob/4a68ae9f1f9c8bf3f45cb622607e751a2466e1b8/core/network.rb#L64</a> Function: - should not contain code duplications - should work with arguments in transparently way (for example - all args[i] should be replaced for human readable and understandable name) - exit code magic should be converted to raise - split for two functions: -- the first which returns its result as string in return -- the second just wraps first and print it to \$out.out - add integration test for the whole command "show keyfile"
