Description

17:46] [O][O]

timofey.turenko Я в вывод --version-full у Maxscale добавил всё, что нужно для <https://dev.osll.ru/issues/7724>

[17:46] [O][O]

Теперь <https://dev.osll.ru/issues/7724> сводиться к тому, чтоб вытащить из лога дженкинса эту информацию

[18:50] [O][O]

alexander.kaluzhniy Задачу <https://dev.osll.ru/issues/7724> с Марком обсудили, появились некоторые вопросы. Подробнее хотим обсудить на встрече mdbci f2f в среду.

[18:52] [O][O]

timofey.turenko в логе дженкинса пишется Maxscale_full_version_start: и Maxscale_full_version_end

[18:52] [O][O]

я предлагаю тупо всё, что между этими двумя сообщениями и копировать в email

=====

- extract all between Maxscale_full_version_start: и Maxscale_full_version_end using build_parser
- add extracted text to build letter
